1. About Us

Vichar Manch Nukkad Natak Team is a theatre-based campaign and communication team specialising in corporate awareness programmes, social impact initiatives, NGO projects and brand promotion activities.

With a network of **100+ artists**, Vichar Manch brings together performers and creative professionals to develop engaging, audience-focused campaigns tailored to organisational objectives.

A poster is read in seconds and a presentation is forgotten by evening. A live play is **watched, felt and remembered**. That is why we combine the power of live theatre with effective communication, to deliver meaningful experiences across diverse audiences.
